Rules of Play – Man-Scram

- Before teeing off on any given hole, Partners decide which format to play that hole:
 - Their own balls to the hole (Man), OR
 - Scramble (Scram)The team ahead in the match must declare their intention first.
If teams are tied, the team with honors for the hole declares first.
- Each member of the 2-man team tees off. If playing Scram, the partners decide which ball to play.
- When playing Scram, use the usual PI Scramble ball placement rules (one clubhead, same general lie, no closer to the hole).
- Scoring: Just enter the total number of shots onto your own personal card. There is a small advantage in handicaps for teams playing Man that will be reflected in the final score for the round. **Both team members must update their own cards!**
 - When playing Man, enter your individual score for the hole onto your scorecard.
 - When playing Scram, enter the team's total number of scramble shots onto both players' cards.
- 2 drives per player are required per 6 hole mini-match.**
 - When playing Man, the drive of the low scorer is recorded. If partners record the same score, both drives can be recorded.
 - When playing Scram, the drive used is recorded.
